

## Presentation Guideline for Master Slide

### Rules for creating a presentation

1. The Presentation should contain a maximum of 10 slides.
2. Presentation should contain only graphs and observations.(**NO CODE SNIPPET REQUIRED**)
3. Code should be **submitted** separately.
4. The Slides should contain topics and each topic must contain minimum slide quantity as given below.
5. You can mix bulleted points slides with ones with pictures or with both text and pictures.
6. Choose a smooth and easy to read font (**Roboto**).
7. Highlight important keywords.
8. Your speech is created in your mind. Avoid wording that begins with "aaa" or "umm".
9. Plan **B** is always a good idea when making a presentation. Technical difficulties can always arise that prevent you from continuing the presentation.
10. Make sure you do your research and use these creative presentation ideas
